Dear Angeline,

**IN APPRECIATION**

Chartered Semiconductor Manufacturing had successfully published the "Together We Beautify" coffee table book. All paintings have since been hung up onto the walls in Fab7 office building in commemorating the successful startup of our latest state of the art 300mm wafer fabrication facility, Fab 7.

We deeply appreciate the in-depth knowledge and professionalism from Ms. Angeline Lim at Art Line on the local artwork in making this coffee table book possible - local artwork was the theme of Chartered's coffee table book. Also, appreciate Art Line's quality in service for fast delivery and installation of the collections.

Thank you.

Warm Regards,

LIM KIAN WEE
